

THE TECHNICAL UNIVERSITY OF KENYA

QUALITY OBJECTIVES

1. To offer relevant and quality academic programmes that provide holistic graduates who are scientifically grounded, innovative, creative and practically skilled.
2. To inculcate a culture of creativity and innovation in a dynamic and interdisciplinary research environment for advancement of society.
3. To expand and strengthen local and international linkages, community engagements and mutually beneficial partnerships with industry for greater institutional advancement.
4. To provide a responsive and technologically driven management system for growth and optimal utilisation of institutional resources.
5. To nurture cordial relations with Government, public institutions and other stakeholders in the furtherance of institutional mandate with fidelity.
